

(c) If a vessel is in a closed area during a time specified in paragraph (a) of this section with pelagic longline gear on board, it is a rebuttable presumption that fish on board such vessel were taken with pelagic longline gear in the closed area.

#### § 622.275 Size limits.

All size limits in this section are minimum size limits unless specified otherwise. A fish not in compliance with its size limit, as specified in this section, in or from the Atlantic EEZ, may not be possessed, sold, or purchased. A fish not in compliance with its size limit must be released immediately with a minimum of harm. The operator of a vessel that fishes in the EEZ is responsible for ensuring that fish on board are in compliance with the size limits specified in this section.

(a) *Dolphin in the Atlantic off Florida, Georgia, and South Carolina*—20 inches (50.8 cm), fork length.

(b) [Reserved]

#### § 622.276 Landing fish intact.

(a) Dolphin and wahoo in or from the Atlantic EEZ must be maintained with head and fins intact. Such fish may be eviscerated, gilled, and scaled, but must otherwise be maintained in a whole condition.

(b) The operator of a vessel that fishes in the EEZ is responsible for ensuring that fish on that vessel in the EEZ are maintained intact and, if taken from the EEZ, are maintained intact through offloading ashore, as specified in this section.

#### § 622.277 Bag and possession limits.

Section 622.11(a) provides the general applicability for bag and possession limits.

(a) *Atlantic dolphin and wahoo*. Bag and possession limits are as follows:

(1) Dolphin—10, not to exceed 60 per vessel, whichever is less, except, on board a headboat, 10 per paying passenger.

(2) Wahoo—2.

(b) [Reserved]

#### § 622.278 Commercial trip limits.

Commercial trip limits are limits on the amount of Atlantic dolphin and wahoo that may be possessed on board

or landed, purchased, or sold from a vessel per day. A person who fishes in the EEZ may not combine a trip limit specified in this section with any trip or possession limit applicable to state waters. A species subject to a trip limit specified in this section taken in the EEZ may not be transferred at sea, regardless of where such transfer takes place, and such species may not be transferred in the EEZ. Commercial trip limits apply as follows (all weights are round or eviscerated weights unless specified otherwise):

(a) *Atlantic dolphin and wahoo*. (1) The trip limit for wahoo in or from the Atlantic EEZ is 500 lb (227 kg). This trip limit applies to a vessel that has a Federal commercial permit for Atlantic dolphin and wahoo, provided that the vessel is not operating as a charter vessel or headboat.

(2) The trip limit for a vessel that does not have a Federal commercial vessel permit for Atlantic dolphin and wahoo but has a Federal commercial vessel permit in any other fishery is 200 lb (91 kg) of dolphin and wahoo, combined, provided that all fishing on and landings from that trip are north of 39° N. lat. (A charter vessel/headboat permit is not a commercial vessel permit.)

(b) [Reserved]

#### § 622.279 Restrictions on sale/purchase.

(a) *Atlantic dolphin and wahoo*. (1) A person may sell dolphin or wahoo harvested in the Atlantic EEZ only if it is harvested by a vessel that has a commercial permit for Atlantic dolphin and wahoo, as required under § 622.270(a)(1), or by a vessel authorized a 200-lb (91-kg) trip limit for dolphin or wahoo, as specified in § 622.278(a)(2), and only to a dealer who has a permit for Atlantic dolphin or wahoo, as required under § 622.270(d)(1).

(2) In addition to the provisions of paragraph (a)(1) of this section, a person may not sell dolphin or wahoo possessed under the bag limit harvested in the Atlantic EEZ by a vessel while it is operating as a charter vessel or headboat. A dolphin or wahoo harvested or possessed by a vessel that is operating as a charter vessel or headboat with a Federal charter vessel/headboat permit for Atlantic dolphin

## § 622.280

and wahoo may not be purchased or sold if harvested from the Atlantic EEZ.

(3) Dolphin or wahoo harvested in the Atlantic EEZ may be purchased only by a dealer who has a permit for Atlantic dolphin and wahoo and only from a vessel authorized to sell dolphin or wahoo under paragraph (a)(1) of this section.

(b) [Reserved]

### § 622.280 Annual catch limits (ACLs) and accountability measures (AMs).

(a) *Atlantic dolphin*—(1) *Commercial sector*. If commercial landings for Atlantic dolphin, as estimated by the SRD, reach or are projected to reach the commercial ACL of 1,065,524 lb (483,314 kg), round weight, the AA will file a notification with the Office of the Federal Register to close the commercial sector for the remainder of the fishing year. On and after the effective date of such a notification, all sale or purchase of Atlantic dolphin is prohibited and harvest or possession of this species in or from the South Atlantic EEZ is limited to the bag and possession limit. This bag and possession limit applies in the South Atlantic on board a vessel for which a valid Federal commercial or charter vessel/headboat permit for South Atlantic snapper-grouper has been issued, without regard to where such species were harvested, *i.e.*, in state or Federal waters.

(2) *Recreational sector*. If recreational landings for Atlantic dolphin, as estimated by the SRD, exceed the recreational ACL of 13,530,692 lb (6,137,419 kg), round weight, then during the following fishing year, recreational landings will be monitored for a persistence in increased landings and, if necessary, the AA will file a notification with the Office of the Federal Register, to reduce the length of the following recreational fishing season by the amount necessary to ensure recreational landings do not exceed the recreational ACL in the following fishing year. However, the length of the recreational season will also not be reduced during the following fishing year if the RA determines, using the best scientific information available, that a reduction in the length of the following fishing season is unnecessary.

## 50 CFR Ch. VI (10–1–13 Edition)

(b) *Atlantic wahoo*—(1) *Commercial sector*. If commercial landings for Atlantic wahoo, as estimated by the SRD, reach or are projected to reach the commercial ACL of 64,147 lb (29,097 kg), round weight, the AA will file a notification with the Office of the Federal Register to close the commercial sector for the remainder of the fishing year. On and after the effective date of such a notification, all sale or purchase of Atlantic wahoo is prohibited and harvest or possession of this species in or from the South Atlantic EEZ is limited to the bag and possession limit. This bag and possession limit applies in the South Atlantic on board a vessel for which a valid Federal commercial or charter vessel/headboat permit for South Atlantic snapper-grouper has been issued, without regard to where such species were harvested, *i.e.*, in state or Federal waters.

(2) *Recreational sector*. If recreational landings for Atlantic wahoo, as estimated by the SRD, exceed the recreational ACL of 1,427,638 lb (647,566 kg), round weight, then during the following fishing year, recreational landings will be monitored for a persistence in increased landings and, if necessary, the AA will file a notification with the Office of the Federal Register, to reduce the length of the following recreational fishing season by the amount necessary to ensure recreational landings do not exceed the recreational ACL in the following fishing year. However, the length of the recreational season will also not be reduced during the following fishing year if the RA determines, using the best scientific information available, that a reduction in the length of the following fishing season is unnecessary.

[78 FR 22952, Apr. 17, 2013, as amended at 78 FR 23864, Apr. 23, 2013]

### § 622.281 Adjustment of management measures.

In accordance with the framework procedures of the FMP for the Dolphin and Wahoo Fishery off the Atlantic States, the RA may establish or modify the following items specified in paragraph (a) of this section for Atlantic dolphin and wahoo.

(a) *Atlantic dolphin and wahoo*. Biomass levels, age-structured analyses,
